

MFA INCORPORATED

# 4R SOIL HEALTH FIELD DAY

June 24<sup>th</sup> | 9:00AM - 2:30 PM

## American Legion Hall

20891 Alfalfa Ave., Blackburn, MO 65321

Please RSVP and direct questions to **Joe Zoellner**

 [jzoellner@mfa-inc.com](mailto:jzoellner@mfa-inc.com)

Attendance is limited to 75 participants.

Join us for an informative day focused on tech innovation and real-world results in agriculture. Topics will include MFA's Nutri-Track® program and its success with Urich Farms, nutrient management cost-share opportunities, integrating livestock into row-crop operations with virtual fence technology, and the latest advancements in AI, robotics and drones in modern agriculture.

Morning presentations will be held in a climate-controlled building, with lunch served before traveling a short distance to **Hemme Brothers Farms**, 16728 Arcadia Ave., Sweet Springs, MO 65351.

The afternoon will wrap up with a tour of Hemme Brothers Farms, where attendees will hear their story of improving soil health across their operation and creating new opportunities by diversifying farm income through their working creamery.
